

How to Attend Photon Camp

1. Complete the application (<http://www.optics.rochester.edu/about/photon-camp.html>)
2. Complete permissions and liability release form.
3. Create a personal statement of approximately 300 words or less describing our interests and future ambitions.
4. Ask a teacher for a letter of recommendation (math or science teacher preferred).
5. Submit the following documents to Dustin Newman:
 - a. Application
 - b. Permissions form
 - c. Personal Statement
 - d. Letter of recommendation
 - e. Transcript
6. Above documents are due to Dustin Newman no later than 5pm on May 22, 2020. Space is limited and admissions are “rolling”. That is, camp slots will be filled as qualified applicants apply. (Note: No admission decisions will be made before May 22).
7. Documents may be submitted via mail or scanned .pdf document.
8. If submitting an application via e-mail, please do not submit photos of the documents. They **must** be submitted in .pdf format. Non-pdf applications, or illegible .pdf submissions, will not be considered.
 - a. Submit documents electronically to dustin.newman@rochester.edu
 - b. If you are submitting via U.S. mail, use the following address:
 - i. Dustin Newman
The Institute of Optics
PO Box 270186
Rochester, NY 14620
9. Photon Camp is geared towards rising Juniors and Seniors with a strong background in math and physics. As the level of instruction at Photon Camp is higher than the typical high school classroom, exceptions will not be made to this policy.
